

**NORTH YORKSHIRE
FIRE & RESCUE SERVICE**

Competition time

We have received some exciting news at the Fire Station, we are getting a brand new Fire Engine!

Unfortunately, our old Fire Engine is getting a little tired from all the journeys it's been on helping at fires, road traffic accidents, getting people and animals out of water, the occasional cat up a tree as well as lots of other types of emergencies.

Give me a name

The new Fire Engine is due to arrive soon but before it can be used, it's going to need a name!

To enter the competition watch our Safe & Well video before answering some questions about what you have learnt.

Watch our Safe & Well video here:

If your idea is chosen as the winner it will be painted on the side of the Fire Engine for everyone to see and you'll receive a special visit at school from the Fire Service.
