

# Financial Exploitation

## Moving Money Launch

The Children's Society's National Prevention Programme is proud to publish the UK's first research report dedicated to child financial exploitation and exploitative money laundering, launched alongside a powerful youth voice report which presents young people's own views on financial exploitation.

Every child deserves protection from exploitation and we all have a part to play. By reading and sharing these pioneering reports, you can help raise awareness and ensure that children and young people receive the support they need, exactly when they need it most.
