

North Yorkshire
Safeguarding Children Partnership

Training & Learning Directory

Supporting those who work with
children, and their families in North
Yorkshire

Happy

Healthy

Safe

Achieving

Who are we?

The NYSCP brings together North Yorkshire Council, Police and Health colleagues with wider partners across education, the justice system, social care, early years and the voluntary sector, to share learning and strengthen safeguarding practice for the children of North Yorkshire.

What do we do?

- Develop and share multi agency safeguarding learning.
- Publish practice guidance and promote effective safeguarding practice.
- Review safeguarding practice and listen to practitioner and child voice.

Who is this for?

This is for anyone who works with, supports or makes decisions about children and families in North Yorkshire. It is designed to help practitioners, managers, leaders and volunteers find learning that is relevant to their role, experience and safeguarding responsibilities.

We want children to be

Happy

Healthy

Safe

Achieving

Ways to start Learning

There is no single pathway through safeguarding learning. This section helps you choose a starting point that fits your role, experience and current learning needs. Whether you are new to safeguarding, developing your practice, or want to explore a specific topic in more depth, you can follow the route that feels most relevant to you.

Pathway 1: New to Safeguarding

Ideal for

- New starters
- Newly qualified staff
- Staff new to North Yorkshire
- Staff taking on safeguarding responsibilities

UNDERSTAND

Visit the
NYSCP Website

- Introduction to NYSCP
- Local Safeguarding Arrangements
- Thresholds & Continuum of Need

WATCH

Ways to start Learning

Pathway 2: Developing Practice

Ideal for

- Experienced practitioners
- Safeguarding leads
- Managers

Estimated Time:

4.5 hours +

Explore professional guidance, learning briefings, audit findings and review learning through the NYSCP website, alongside recorded webinars and resources that can be used for self-directed learning, supervision, team discussions and service improvement. Live learning sessions and events, available via the Learning Zone or NYES, provide opportunities to learn from specialists, explore emerging issues and apply learning in practice. Learning briefings can also be used to support reflection and discussion and to consider how the learning can be applied in practice.

Ways to start Learning

Pathway 3: Learning More - Topic Based Learning

Ideal for

- Practitioners wanting to deepen knowledge
- Staff responding to local priorities
- Managers supporting team development

Topic-based learning pathways help you focus on a safeguarding theme that is relevant to your role, experience, interests or the children and families you support.

Each pathway offers a suggested journey through different types of learning, including guidance, recorded learning, briefing papers, live sessions and reflective discussion.

The **Harmful Sexual Behaviour Pathway** shown here is an example of how topic based learning can be used to understand key messages, by watching or attending learning, reading supporting resources and reflecting on how the learning can strengthen practice.

Estimated Time:

6 + Hours

Pathway 3: Learning More - Topic Based Learning

Ideal for

- Practitioners wanting to deepen knowledge
- Staff responding to local priorities
- Managers supporting team development

The Voice of the Child Learning Pathway shown here demonstrates how a structured learning journey can help practitioners build knowledge and confidence in capturing and responding to children's voices. Through a combination of learning resources, training opportunities and reflective practice, professionals can enhance child-centred safeguarding and ensure that children's views, wishes and feelings remain at the heart of decision-making.

To view further learning pathways, please see the training pages on the NYSCP website.

Ways to start Learning

How much time do you have?

You do not need to complete a full learning pathway in one sitting. This section helps you select meaningful learning based on the time you have available.

15 minutes - Refresh and reflect

- Professional Curiosity: Read a short briefing, top tips guide or supervision prompt.
- Threshold and Continuum of Need: Refresh understanding of local safeguarding arrangements.
- Learning from Reviews: Read a short learning summary and identify one practice message.
- E-bulletin update: Read the latest safeguarding update or training notice.

30 minutes - Explore and discuss

- Harmful Sexual Behaviour: Watch the scenario videos and explore the Hackett continuum
- Learning for Professionals: Read a briefing paper. Use a discussion prompt / question for reflection linked to it, reflect and record how this will make a difference to your practice, and discuss in your next meeting.
- Domestic Abuse: Review key messages about the impact on children and apply them to current practice.

1 hour plus - Deepen and apply

- Developments in Safeguarding Learning Event: Attend or watch a recording, and identify how the learning applies locally.
- Topic Learning Pathway: Follow a full pathway such as Voice of the Child, Neglect, or Professional Curiosity.
- Network or Development Day: Attend a network, conference or development session and share learning back with your team.
